Adding Doses and Lab Results

How do I add doses and lab results?

Written by Sharmeen Roy, PharmD, BCPS

Updated over a week ago

Adding Doses and Lab results are now easier than ever inside of DoseMeRx!

You can quickly add a dose or multiple doses from the patients tab of DoseMeRx. To do this simply select the patient to open the patient preview for your patient. Then simply select 'Add Doses' on the course you would like to add doses for.
