Adding a patient in DoseMeRx

How do I add a patient in DoseMeRx?

Written by Sharmeen Roy, PharmD, BCPS
Updated over a week ago

To get started and enjoy the benefits of DoseMeRx, the first step is to add your patient's details.

Once you've logged into DoseMeRx you will be brought to the patients tab, displaying all of your active patients in your institution. To begin adding a patient, select 'Add Patient' and complete the information for your patient including patient ID number, full name, date of birth, sex, weight, height, and unit.
